What is the architectural style of your home? Do you want your new kitchen to reflect that style?

How long do you intend to stay in your home? Are you redesigning your kitchen primarily for your own use, or are you updating it with the intent to sell your home?

Is there a particular style that you like? (contemporary, traditional, transitional, etc.)

What do you like and dislike about the way your current kitchen looks and functions?

Tell us a little about your project:

Are you working with a contractor? If so, who? If not, are you planning on doing any/all of the work yourself? Would you like us to quote installation and any/all other work on the project? (electrical, plumbing, etc.)

When would you like the project to begin? When would you like it completed?

What budget range you have established for the project?

Do you plan to gut the kitchen area? Would you like to keep the same general layout and make cosmetic changes, or does the layout need to be reconfigured? Would you like to expand into another room?

Would you like to replace your floor? If not, what is the current material? (wood, tile, laminate, etc.) If so, what material (if any) do you have in mind?
